Company Overview

EUROTECH INTERNATIONAL FZ – LLC is a network of mechanical engineering product manufacturers and services providers with our registered office in Ras Al Khaimah, U.A.E. We address critical needs in the manufacturing / engineering sectors of Steel, Cement, Ceramics, Mining and more. We serve customers in UAE, KSA, Oman, Bahrain and African Countries. Our people and products have several decades of market presence.

EUROTECH is proud to be representing remarkable engineering companies to our valued customers. We are committed to provide quality products and services. We assure thorough internal and external quality checks at each stage of order fulfillment. All our suppliers are ISO certified. Our motto is to deliver excellence to all our clients.

OUR VISION

Our vision is to grow at a steady pace in the field of mechanical engineering products and services.

OUR MISSION

We will attain our vision by maintaining the healthiest relationship with our esteemed customers and suppliers, delivering excellence in our products and services.

OUR VALUES

We believe our values are integrity, humility and goodwill.

Oriental Rubber established in 1949, over the years, gained the reputation of being a world class manufacturer of rubber conveyor belts. Oriental today is the biggest Indian exporter of fabric reinforced conveyor belts. The Company offers a wide range of belting products and its accessories for the most demanding and rigorous applications pertaining to bulk material handling. Oriental has been able to conform to the most stringent norms laid down by the certification bodies like MSHA & SABS.

Abrasion Resistant Conveyor Belts | Heat Resistant Conveyor Belts | Elevator Belts | Steel Cord Belts
Aramid Kevlar Belts (DuPont™ Kevlar®) | Pipe Conveyor Belts | Fire Resistant Conveyor Belts
Oil Resistant Conveyor Belts | Skirt Rubbers | Impact Pads | Rubber Pulley Laggings
Ceramic Pulley Laggings | Special Conveyor Belts

Oriental conveyor belts are designed to suite a wide range application for bulk material handling. The cover rubber grades are specially designed with enhanced cut, gauge, wear properties. These belts are normally used for transporting Rock, Limestone, Coal, Iron Ore, Cement, Wood Chips, Aggregates etc.

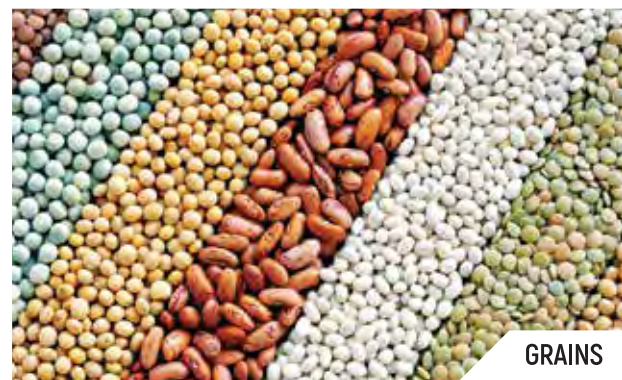

Oriental conveyor belts are extensively used in mining related industries including steel plants, non-ferrous metal plants, cement plants, thermal power plants, quarrying and aggregate processing.

Couplings | Rope Sheaves | Buffers | Limit Switches | Cabin Cooling Systems

HYQUIP
in pursuit of excellence

Hyquip has been providing solutions for the material handling requirements across the verticals like Steel, Coal, Power, Cement, Paper, Food, Sugar, Pharmaceuticals and Chemical Industries over three decades. Hyquip has developed dependable processes and products in bulk material handling, flow control of bulk solids, crushing and screening of minerals and in-plant automation. Hyquip is an ISO 9001-2008 certified company, committed to customer satisfaction and continuous improvement of its products and services.

Equipped for challenges.
Poised to deliver.

LIFTON

Hydraulic Power Systems

CA Lifton Hydraulic Power Systems Inc geared its operation in early 2000 in Canada. The company proved to be one of the best through technology, innovation and continuous product development. Extremely wide range of products are accepted in different industry sectors like Construction, Maintenance, Marine & Shipyards, Mining, Railways, Steel & Cement.

Hydraulic Cylinders | **Hydraulic Punches & Presses** | **Hydraulic Jacks** | **Hydraulic Pumps**
Manual Torque Wrenches | **Hydraulic Crimpers & Cutters** | **Bolt Tensioners & Tensioning Pumps**
Hydro Test Pumps | **Customized Hydraulic Systems**

POWERING THE INDUSTRY

Hydraulic Cylinders

Capacity Range 5 Ton to 2000 Ton
Single Acting | Double Acting
Hollow Plunger | Aluminium

Hydraulic Punches & Presses

Various Capacities
Portable Hole Punches | Knock out
Punches Workshop Presses

Hydraulic Jacks

Special Application Jacks
Toe Jacks | Pull Jacks | Propeller Jacks
Welding Jacks | Post-Tensioning Jacks

Hydraulic Pumps

Max working Pressure 700 Bar
Hand Pumps | Foot Pumps
Electrical Pumps | Air Pumps

Hydraulic Crimpers & Cutters

For Various size cables
Crimpers | Battery Crimpers
Cable Cutters | Rod Cutters

Bolt Tensioners & Tensioning Pumps

130 Nm to 50000 Nm
Square Drive Models | Low Clearance
Models Sockets | Reducer Inserts

Accessories

Working Pressure 700 Bar
Hoses | Couplers | Pressure Gauges
Adaptors | Valves

Manual Torque Wrenches

25 Nm to 3000 Nm
Hand Torque Wrenches | Torque Multipliers
Digital (reading) Wrenches

Hydro Test Pumps

1000 Psi to 40000 Psi
Air driven Pumps | Manual Pumps

Customized Hydraulic Systems

Low Pressure
Cylinders | Powerpacks | Valves

Hydraulic Power Systems

ferrum

Since Ferrum produced the first industrial centrifuges in 1935, the company has developed into to a world-leading manufacturer of high-performance scraper and pusher centrifuges. Today, well-known producers from the chemical, fine chemical and pharmaceutical industries trust in the trouble-free solid-liquid separation of Ferrum centrifuges. The combination of competence, experience and spirit of innovation guarantees the proven and long-term benefits of the Ferrum centrifuges. The broad range of products, the worldwide business, as well as a very high level of self-financing, ensure a strong market position with excellent prospects for the future.

Pusher Centrifuges

Industrial Separation Solutions

ZING e.i.r.l.

Zing e.i.r.l founded in Santiago, Chile in 2004, is a material handling specialist with wide experience around the world. The company has executed basic and detailed design services for diverse projects. The company is doing engineering and consulting services for bulk handling systems, such as overland conveyors, pipe conveyors, ship loading and unloading, yard machines, in-pit systems, etc.
